

Partnering with City National Rochdale

Adding our team to yours can help your practice.

A Boutique Approach.

City National Rochdale is an investment management firm specializing in intelligently personalized portfolios for high-net-worth individuals, families, and foundations with greater than \$1 million in investable assets. Our tailored solutions are designed for clients desiring personalized portfolio management strategies that address their unique situation relative to investment objectives, tax sensitivities, income needs, or existing holdings with low cost basis or concentrated positions.

Each client's portfolio is built from the ground up. City National Rochdale acts as a "holistic" manager, meaning we manage client's assets by using a broad spectrum of asset classes. We work with a client's existing holdings and develop a tax-sensitive transition plan to fit individual needs. We can also build portfolios to complement non-portable assets (e.g., current 401(k)s, company stock, other managers, etc.).

Portfolios actively managed
by dedicated Portfolio
Managers that work side-
by-side with you. We call it
Intelligent PersonalizationSM

Getting Started

The steps below show how we work with you to help you grow and serve your high-net-worth business. You'll always be the central contact and relationship manager to your clients throughout the entire process.

IF YOU WANT

ASSESSMENT

Your Senior Investment Consultant will work with you to gather information, then create the custom investment strategy which you can present to your client together.

A portfolio manager to oversee every strategic decision and build your client portfolios through detailed efforts to understand and define your client's unique investment goals, cash flow needs, tax sensitivities, and risk tolerances.

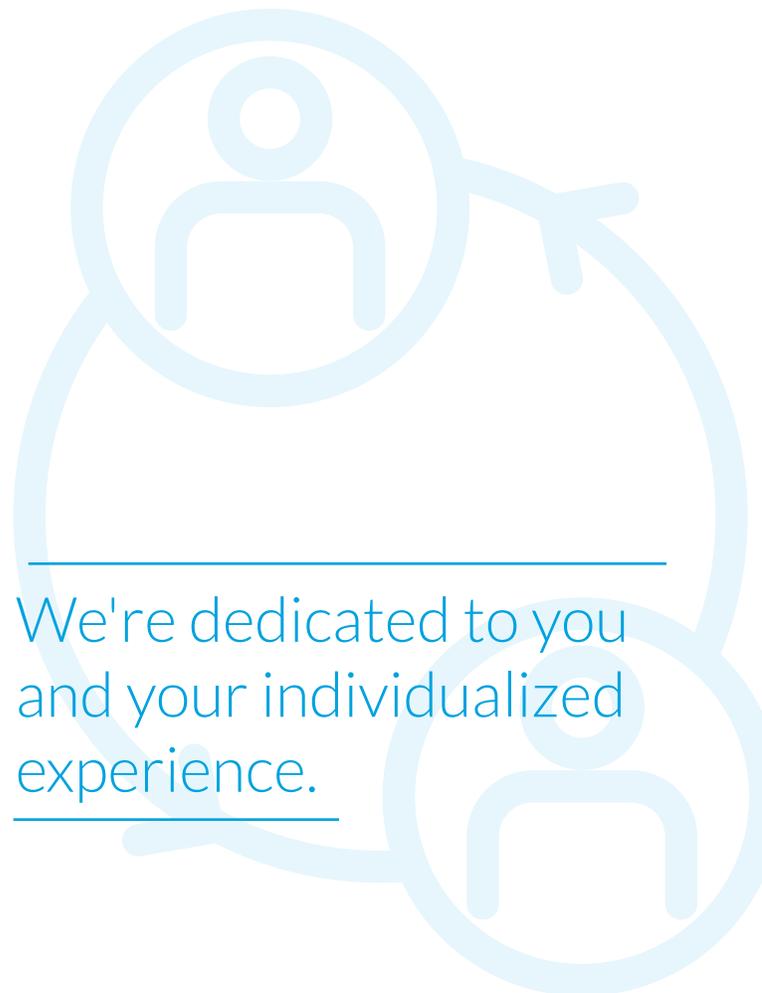

IMPLEMENTATION

In our tax-sensitive account migration process you and your client meet your City National Rochdale portfolio manager to discuss the goals for their portfolio and finalize the implementation strategy.

ONGOING MANAGEMENT

Continuous Communication
You and your portfolio manager will meet periodically to discuss changes to your client's goals and review performance.

We're dedicated to you and your individualized experience.

As with any investment strategy, there is no guarantee that investment objectives will be met and investors may lose money. All investing is subject to risk, including the possible loss of the money you invest. Past performance is no guarantee of future performance.

Non-deposit Investment Products: ■ are not FDIC insured ■ are not Bank guaranteed ■ may lose value

Put our strengths to work for you.

Right now, most of your time is likely spent understanding and managing client goals and investments, leaving little time for proactive relationship building and growing your business. **What if that was reversed?**

With our help and support, you spend less time on reviewing investments, rebalancing portfolios, and managing performance. You have more time and resources supporting you so you can focus on your business.

ONE-TO-ONE PERSONAL SERVICE

We take the time to meet with you and your clients in person for quarterly portfolio reviews, via video for investment updates, and by phone for one-off needs. Each client has direct access to their portfolio manager, and we encourage regular communication.

SOPHISTICATED PORTFOLIO CONSTRUCTION

Your portfolio manager oversees every strategic decision, building your client portfolios through detailed efforts to understand and define specific client investment goals, cash flow needs, tax sensitivities, and risk tolerances.

Benefits of a Single Manager Approach

As a single manager, City National Rochdale offers many benefits versus the traditional multi-manager approach.

With our help and support, you spend less time on reviewing investments, rebalancing portfolios, and managing performance. You have more time and resources supporting you so you can focus on your business.

	Single Manager	Multi-Manager
Analysis	In-depth analysis of existing holdings and illustrated tax efficient transition strategies	Little/no analysis of current portfolio; transition limited to manager's current buy list
Customization	Custom asset allocation policy specific to client objectives. <i>Value added via intelligently personalizing each client's asset allocation, cash flow needs, and tax sensitivities</i>	Mass customized asset allocation and difficulty in coordinating the managers
Access	Direct portfolio manager relationship	No access to portfolio manager
Tax Management	Portfolio construction emphasizes tax efficiency	Difficulty in coordinating taxes across managers
Risk and Performance	More opportunity for out performance commensurate with client's personalized active risk parameters	Average performance, with any active management averaging out to market performance at best
Rebalancing	Proactive rebalancing away from low performing or risky asset classes	Potential for holdings overlap and style drift due to active risk and conflicting definitions of size/style
Asset Class Allocation	Effective and efficient implementation for each asset class and style	Ignores complex interrelationships and overlap between asset classes and specialist groups

The personalized way we work makes you—your client's trusted advisor—front and center at every step of our process.

When to Partner with City National Rochdale

IF YOU WANT

Objective advice from your dedicated portfolio manager with complete independence to invest your client's best interest.

A portfolio strategy tailored to your client's evolving needs, powered by in-house research, a tax-sensitive approach, and protected by three levels of active risk management.

Regular communication from your investment team and adjustments to ensure your client's portfolio performs.

IF YOUR CLIENT...

Wants **direct access** to senior portfolio strategists and portfolio managers

Has any social, personal, or other **special portfolio constraints**

Needs a **personalized portfolio** income strategy and is planning for retirement or other cash flow scenarios

Is **selling a business, establishing a trust, or planning for heirs**

Is concerned about market volatility and would benefit from a **risk analysis**

Prefers to **review performance with the experts** who directly manage their portfolio

Needs a **comprehensive analysis** of an existing portfolio to identify inefficiencies

Is concerned about the **tax implications** of their investment portfolio

We engineer investment strategies across asset classes.

When it comes to developing sophisticated investment strategies, we are, at our core, analytically driven and research-focused.

This disciplined investment process provides opportunity for greater diversification, as each client portfolio is constructed within our strategic allocation framework and then personalized to align with each client's personal goals and risk tolerance.

OUR APPROACH

Intelligently personalized portfolio management begins by providing clients access to a broad spectrum of asset classes and sophisticated investment strategies.

Our investment professionals have a thorough understanding of managing equity and fixed income investments, which typically form the foundation of client portfolios.

The precise stock selection process we have developed employs both quantitative and qualitative processes to help identify what we believe are the most attractive companies within sectors.

Bespoke opportunities.
Tailor made to fit you and your business.

Our portfolio management team leverages the resources of our internal equity research team to provide a broad array of equity strategies.

WHAT DISTINGUISHES CITY NATIONAL ROCHDALE

Our collaborative business model allows you to leverage our resources so that you can maximize your time and relationships. We help you gain more freedom to build your “dream” practice.
