SEC-Required Report on Routing of Customer Orders for Quarter Ending June 30, 2018

RIM Securities has prepared this report pursuant to a U.S. Securities and Exchange Commission rule requiring all brokerage firms to make publicly available quarterly reports on their order routing practices. The report provides information on the routing of "non-directed orders" - any order that the customer has not specifically instructed to be routed to a particular venue for execution. For these non-directed orders, RIM Securities has selected the execution venue on behalf of its customers.

The report is divided into four sections: one for securities listed on the New York Stock Exchange, one for securities listed on the NASDAQ, one for securities listed on the American Stock Exchange or regional exchanges, and one for exchange-listed options. For each section, this report identifies the venues most often selected by RIM Securities, sets forth the percentage of various types of orders routed to the venues, and discusses the material aspects, if any, of RIM Securities' relationship with the venues.

Securities Listed on the New York Stock Exchange

Summary Statistics:

Non-directed orders as a percentage of total customer orders	100%
Market orders as a percentage of total non-directed orders	99.97%
Limit orders as a percentage of total non-directed orders	0.03%
Other orders as a percentage of total non-directed orders	0.00%

Venues Receiving Significant Percentage of Total Non-Directed Orders:

PERSHING, LLC	100%
